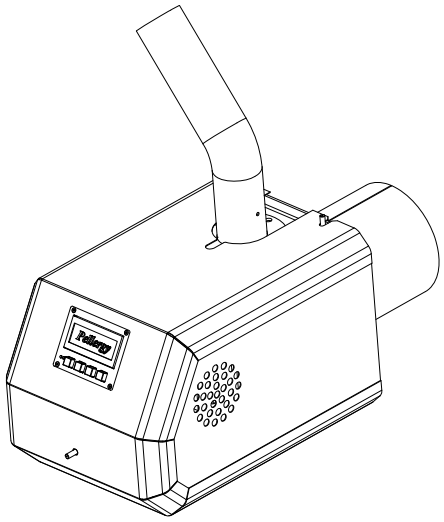
PELLERGY



# PB-1525 Wood Pellet Burner

**Features of the Pellergy Wood Pellet Burner System**

- Made in Vermont using the highest quality materials including full high temperature stainless steel burn chamber
- Integrated stack gas temperature sensing for maximum safety and optimal performance
- Monitors Start/Stop cycles and hours of run time
- Adjustable firing rate from 60,000 to 120,000 btu/hr
- Fully automated, thermostatically controlled with electronic ignition
- System sold complete with auger, 550LBS working hopper and controls
- Independently listed to the applicable sections of UL, CSA and ASTM
- Available mated to Pellergy steel boilers or triple pass cast iron boilers as a listed package

| Specifications | |
|---|---|
| Output | 60,000 – 120,000 btu/hr |
| Fuel | Premium Wood Pellets |
| Voltage | 120V AC, 60 Hz |
| Amps (max) | 5.5 A |
| Control | N.O. Thermostat Switch |
| Aux Alarm Output | N.O. Contacts |
| Fuel Capacity | 550 LBS Standard |
| Warranty | 5-Yr Limited |
